

HOME INVENTORY CHECKLIST

Whether you rent or own your home, you should have a home inventory list in case of severe weather, fire, burglary or other damage. An inventory list can help you make an insurance claim and have it settled a lot faster. There are several ways to create a home inventory list. It can be as easy as taking a video throughout your home and uploading it to a private YouTube channel or as comprehensive as a spreadsheet of your inventory.

Once you have completed your home inventory, check with your AAA Insurance consultant to determine your available coverage and what, if any, additional coverage you may need. Remember to store this list in a safe place away from your home.

Remember that having a partial inventory list is still better than not having one at all.
